Keyboard W10a

Keyboard case with tablet dock for SurfTab wintron, wintron 10.1 3G

The perfect addition
The TrekStor Keyboard W10a is a high-quality keyboard case with a stand function and is the ideal companion for your SurfTab wintron 10.1 or wintron 10.1 3G. Thanks to its practical features, it rounds out the Office package for the SurfTab wintron 10.1 (3G).
The Keyboard is equipped with an innovative tablet dock, which you can connect to the wintron with a single click and then immediately get started. The magnets built into the dock and the foldable case hold the wintron in a secure position, allowing you to type comfortably.

Master the art of efficiency
The Keyboard W10a comes with a full QWERTY keyboard that allows you to type just as you would on an ordinary PC keyboard. Numerous function keys specially designed for the wintron 10.1 (3G) functions make it possible to simply operate the SurfTab using fast keys.
Whether you're writing e-mails, editing spreadsheets, chatting with friends or creating presentations, the TrekStor keyboard enables you to work faster and more efficiently.

Protection for your new SurfTab
The TrekStor Keyboard W10a is more than just a keyboard. It's a practical two-in-one product that protects your wintron against scratches, knocks and dirt. It also serves as a protective case thanks to its stable cover and soft centre. Simply fold the front over the wintron and pack it up. The built-in magnet lock reliably protects your new SurfTab inside the case, whether you're at home or on the go.
